Education

University of Washington

September 2017 - 2021

Bachelor of Science, Biochemistry | GPA: 3.4
Minor in Chemistry

University of Washington - Coding Bootcamp

(expected) March 2022

Experiences

University of Washington - Coding Bootcamp

(expected) March 2022

- Utilized front-end skills such as HTML, CSS, and Javascript to build responsive projects and websites/ applications.
- Developed an anime image analyzing application that provides users with information and gifs on that anime from where the image originated.
- Created a Quiz game utilizing HTML and javascript to make a dynamic and responsive user experience.

Undergraduate Researcher- Chavkin Lab

December 2019 - 2021

- Collaborated with other researchers to implement a machine-learning algorithm called Cellpose using Python for large scale bioimage analysis on the fluorescent response of sensors within cells
- Designed primers, cloned plasmid DNA using PCR, performed gel-electrophoresis, and extracted DNA using QIAquick Gel extraction kit to convert plasmid DNA into viral plasmid DNA
- Conducted live image microscopy on cells transfected with a novel protein sensor

Assistant Manager - Fat Pig BBQ

March 2018 - Present

- Prepare and complete orders in a fast-paced, high-pressure kitchen while maintaining high standards
- Hire new workers, schedule employee shifts, and communicate with existing staff on job duties and performance
- Perform various kitchen-related tasks such as food preparation and facility cleaning
- Maintain and record food and supply inventory

Extracurriculars

Lynnwood FoodBank

August 2021 - Present

- Coordinate with other volunteers to efficiently move, organize, and package various foods to be distributed to families in need.
